Tushar Yadav

Software Engineer | C++ | Artificial Intelligence | Linux
email@example.com | github.com/tusharyadav | linkedin.com/in/tusharyadav

Profile

Systems-focused engineer who builds fast, reliable software in modern C++, trains and ships AI models, and works natively on Linux from the shell to the kernel.

Core Skills

C++ (11-23): RAII, templates, STL, concurrency, performance profiling - Expert
AI / ML: PyTorch, TensorFlow, transformers, LLM fine-tuning, computer vision - Expert
Linux: shell scripting, system administration, networking, containers, toolchains - Advanced
Also: Python, Git, CMake, Docker, SQL

Projects

- High-performance C++ inference engine for neural networks
- AI assistant built on open large language models
- Linux system utilities and automation tooling

Education & Experience

B.Tech in Computer Science (add institution and years)
Software Engineer (add company, role and dates)
